3. Risk Management Function

NBL is exposed to various types of risks including credit, market, liquidity, operational, legal, compliance and reputation risks. The objective of the risk management framework at the Bank is to ensure that various risks are understood, measured and monitored and that the policies and procedures established to address these risks are strictly adhered to.

The Board of Directors has oversight on all the risks assumed by the bank. The board level sub-committee (Risk Management Committee) has been established to facilitate focused oversight of various risks. The committee reviews the risk management policies, the bank's compliance with risk management guidelines issued by NRB and the status of implementation of BASEL - III requirement by the bank.

The Bank has set up a strong control and monitoring environment for comprehensive risk management at all levels of operation by establishing an independent Risk Management Department which caters to the current banking requirement of properly identifying and monitoring the risks apparent and inherent in the business.

Measurement of Risks for Capital Adequacy Purpose:

Under Pillar 1 of the specific NRB guidelines, the bank currently follows Simplified Standardized Approach for Credit Risk, Basic Indicator Approach for Operational Risk and Net Open Position approach for Market risk.

A. Credit Risk

Strategies and Process:

All credit related aspects are governed by Operation Manual-2 (Credit) and Credit Policy of NBL. These documents outline the type of products that can be offered, customer categories, credit approval process and limits. These documents are approved by the Board of directors.

The Bank's main emphasis is on SME credit. Different limits of lending power have been assigned at branch level, department head level and the credit committee level. Every aspect relating to credit such as procedure, documentation etc. are clearly defined in the Operation Manual -2 and the Credit Policy of the bank.

Pre Sanction:

The branch managers have the authority to approve the credit within their permissible limits after due scrutiny of background of the promoter, nature of business, turnover in the account, other financial indicators, income, collateral and security. Loans above the authority of branch are recommended to head office for further decision.

Credit Risk Assessment Process:

Risk Management Department carries out a comprehensive credit risk assessment process that encompasses analysis of relevant quantitative and qualitative information to ascertain credit rating of the borrower. The credit rating process involves assessment of risk emanating from various sources such as market risk, management risk, environmental risk, financial risk and security risk taking into consideration as much as 30 sub-parameters under each of these categories. Credit thresholds have been set for forwarding the credit files for risk rating before they are submitted for approval in the credit committee by the concerned credit units.

Post Sanction Monitoring/ Follow up:

Concerned branch are required to obtain regular information of the business. In case of revolving loans, the drawing power is checked commensurate with the existing level of stocks and working capital checked and verified at regular interval. The credit units at the Head Office are also required to prepare quarterly credit report to submit at higher level as a part of formal monitoring process.

B. Operation Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. Operational risk is inherent in the bank's business activities.

The board level committee that undertakes supervision and review of operational risk aspects are the Risk Management Committee and Audit Committee. The board and the risk committee review the operational risk level and the material operational risk exposure. The Audit committee supervises audit and compliance related aspects. Internal Audit department on the other hand carries out audit according to the audit plan and reports findings to the audit committee.

Risk Arising from breakdown of Information and Operating System:

The bank has introduced new centralized software Pumori-IV and has improved in its MIS infrastructure in order to ensure the associated operational risks being brought down to an acceptably low level.

To safeguard the probable losses resulting from system failure or natural disaster, the bank has taken following policies to minimize the risk:

- a. Back up – Daily back up of all balances are taken at the end of the day. The bank is developing a system of auto back up in the near future.
- b. Disaster Recovery Site – The bank is in the process of establishing a disaster recovery site outside the Kathmandu valley considering the lower frequency of seismic activities.
- c. Validation of Entry and Password control – There is a system of maker and checker for entry validation before posting. Access authority for data entry, update, modification and validation has been given on the basis of levels of staffs.
- d. Exception Reporting – The system creates exception report as and when required.

Risk Arising from Procedural Lapses and Internal control:

The bank has defined every banking procedures in the Operation Manual-1 related to banking transactions. Internal circulars are issued whenever required. Reporting by branches is regular. Internal Audit of maximum branches is carried out each year.

Corporate Governance:

NRB Guidelines with respect to Corporate Governance are duly complied with.

C. Market Risk

a. Investments

Currently NBL has not made any investment for trading purpose. The investment in government securities have been made to hold till maturity. The investment in equity of listed institutions has been held as available for sale.

b. Foreign Exchange

The bank's policy is to maintain the net open position of convertible foreign currency where exchange rate risk persists in matching position.

D. Types of Eligible Credit Risk Mitigants used and benefits availed under CRM:

The eligible collateral taken as benefits under CRM are margin money deposited with the bank against off balance sheet exposures, Loan against Fixed deposits, Loan against Gold and Silver and Government Securities. Under this provision a total of Rs. 10,636,005 Thousand has been deducted from total credit risk as CRM.
